**Mineco**

---

Hi Jelena and Stevan,

This email is to confirm that OCCRP editors, working with KRIK reporters, oversaw the editing of the english version of the Mineco story which was part of the FINCEN project. OCCRP fact checkers also fact checked the story.

Krik ran that story in Serbian. OCCRP is planning on running the story but it was delayed because our production got behind and the story got lost but we plan on running it shortly. OCCRP takes any legal responsibility for the story as it had ultimate editorial control.
